

Fall 2023 Edition**Message from the Chair**

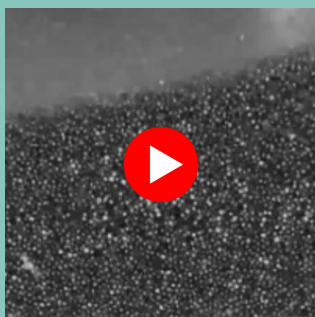

Steven McIntosh
Professor and Department Chair,
Zisman Family Chair in Chemical and
Biomolecular Engineering

Greetings from the Department of Chemical and Biomolecular Engineering at Lehigh University. It was a busy Fall in Bethlehem as we continue to see growth in research activity and recognition for our faculty. Assistant Professor Thomas Gartner joined the department and is establishing his research program in the computational modeling of sustainable polymer materials. **Our students** are excelling in the classroom and beyond, taking advantage of the inclusive departmental environment and new, impactful, and wide-ranging electives offered by the faculty.

Warm regards,

**Honoring the Outstanding
Contributions of Elsa Reichmanis
to Materials Chemistry**

A virtual special issue of **ACS
Chemistry of Materials** honoring
her broad range of work
