

Spring - Summer 2023 Edition

Senior Spotlight

Mixing business with chemical engineering, **Grace Ingabire Kuzwa '23** plans on using her dual major to fight climate change.

Over her four years at Lehigh, **Eva Wolfe '23** developed her skills as a both musician and a chemical engineer.

While chemical engineer, **Wes Patel '23** once aspired to medical school, research experiences and faculty mentoring opened his eyes to the possibilities of a PhD.

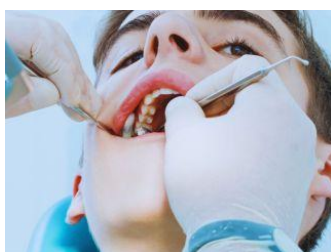

Students Learn to See All the Colors of the Rainbow

A community doesn't include only one color of the rainbow.
