Class Year: _____

Major Department: _____

Major Advisor: _____

Required Courses

Credit Hours

ECE 033	Introduction to Computer Engineering	3
ECE 128	FPGA Laboratory	3
ECE 132	Microcontroller Laboratory	3
ECE 201	Computer Architecture	3

Choose one of the following approved electives:

Total Credits: 16

ECE 303, ECE 306, ECE 318, ECE 319, ECE 336, ECE 361, ECE 363, ECE 401, ECE 416,
Other relevant ECE or CSE courses by petition to the Associate Chair of the ECE Department

Because of similar course requirements between electrical and computer engineering, computer engineering students must complete the four (4) required courses plus two (2) courses from the elective options specified in the list above. EE technical electives (chosen from the above list) can be used to satisfy the requirements of the minor.

When the above courses are completed satisfactorily, a minor field will be recorded on the student's academic record. MINORS DO NOT APPEAR ON THE DIPLOMA.

Technical minors must be declared by the end of pre-registration of the student's sixth semester.
